

# Type4 Internal Battery

Rechargeable Li-ion batteries to install into Type4 Fire Hub Jeweller or Type4 Fire ReX Jeweller

## Версії девайсу

| Name                         | Type                        | Voltage | Capacity | Battery lifespan |
|------------------------------|-----------------------------|---------|----------|------------------|
| Type4 Internal Battery (24h) | Rechargeable Li-ion battery | 7.4 V== | 5 A·h    | 24 h             |
| Type4 Internal Battery (72h) | Rechargeable Li-ion battery | 7.4 V== | 10 A·h   | 72 h             |

### Reliable power backup for the fire alarm system

Internal rechargeable batteries designed for Type4 Fire Hub Jeweller and Type4 Fire ReX Jeweller ensure autonomous system operation in the event of a power outage. The batteries guarantee the uninterrupted performance of Ajax fire alarm systems in critical situations.

### Maintenance-free and safe to handle

- Ready to use out of the box
- Supports hot swapping without interrupting system operation
- All mounting elements are already built in – the battery simply inserts and locks in place

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                  |                              |                              |                       |                       |                                |                                |                 |                 |                                                                                                                                                                                                                               |                                                                                                                                                                           |
